Visualize the statevector on a Bloch Sphere. This shows that the individual qubits are in mixed state, when measured the qubits collapse to the base state in entangled mode i.e., based on state of one qubit we can deduce the state of the other qubit.

```

filename = "./Images/Practical-3_Entanglement_Bell_State_Bloch_Sphere.png"  
fig.savefig(filename)  
plt.close(fig)  
display(Image(filename))
```

This is how the qubits are visible
